Structure

1. **Aims**
2. **Theoretical background:
Mobile learning as socio-cultural ecology**
3. **Database:
Categories for description and analysis of the
mobile learning cases**
4. **Short introduction:
Mo-LeaP**

1. Aims

The database aims to

- provide opportunities for the systematic gathering of practice,
- distribute knowledge which was gained within such projects in order to make practice less ephemeral,
- enable synergies,
- contribute to sustainability in teaching, learning and research, as well as
- enhance replicability of mobile learning projects.

2. Theoretical background: Mobile learning as socio-cultural ecology

Theoretical and conceptual framework of mobile learning:

- educational uses of mobile devices,
- viewed in ecological terms,
- as part of cultural and pedagogical contexts in transformation.

The socio-cultural ecology considers different components:

- the learners' agency, appropriation and cultural practices,
- their everyday lives and school contexts,
- structures and cultural resources as potential links
- between different system components.

All for the benefit of learners.

3. Categories for description and analysis of the mobile learning cases

Project description

1. General project data
2. Context/ rationale
3. Approaches to teaching and learning
4. Technologies and requirements
5. Project outcomes
6. Recommendations and future possibilities
7. Replicability and transferability
8. Optional: recommended literature and references
9. Optional: project analysis

Project Analysis: Criteria

A agency, structure, cultural practice

B approaches to teaching and learning

C notions of mobility

D user-generated contents and contexts

E replicability and transferability

4. Short introduction: Mo-LeaP website and database

<http://londonmobilelearning.net/moleap/>

Step 1: Registration

Submission · Step 1: Registration

 If you already registered with Mo-LeaP please skip this form and proceed to **step 2 "authentication"**.

Identification

All fields are required

Name

First name

Choose password

Confirm password

Affiliation

Valid e-mail address

Please choose a password which cannot be associated with your person in order to avoid abuse.

Terms of use

I accept the terms of use, and I confirm to own all rights to publish the data which I submit to the Mo-LeaP database.

submit

to proceed to step 2 "authentication"

Step 2: Authentication

Submission · Step 2: Authentication

Please enter your data and click the "authenticate" button to proceed to step 3 "your submissions".
Not a registered Mo-LeaP user yet? Please click [here](#) to register.

Remove submissions

To remove your submission(s) from the database, please contact the Mo-LeaP administrators via Mo-LeaP@londonmobilelearning.net.

Step 4: Chose type of submission

Submission · Step 4: Enter submission

Hi **Judith Seipold**. Start the submission process by choosing one of the following options and press the 'submit' button.

I submit (please choose)

PLEASE NOTE: If you indicate a wrong category for your submission it might not be found in the project list and via the project search.

submit

Step 4: Enter submission

Submission · Step 4: Enter submission

Judith Seipold, you chose to submit a **project**. Please start to complete the form.

 If you wish to pause your submission and continue later, just tick the respective box at the bottom of this page and press the 'submit' button. You will be able then to edit your project later on by choosing the 'Your submissions & data' link on the left-hand side bar.

All fields marked with * are required fields.
